

# WHERE IS YOUR WATER GOING?

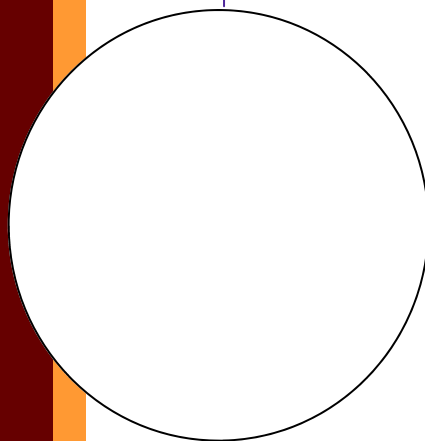

At Virginia Tech, our storm drains carry untreated water directly into creeks and streams. As stormwater flows it picks up debris such as **pet waste, trash, cigarette butts, sediment, etc.** and it all ends up in our waterways.

## WHAT CAN YOU DO?

Don't dump anything down storm drains

Dispose of cigarette butts in an ashtray or other appropriate receptacle

Clean up pet waste from your yard and when you take your pet on a walk

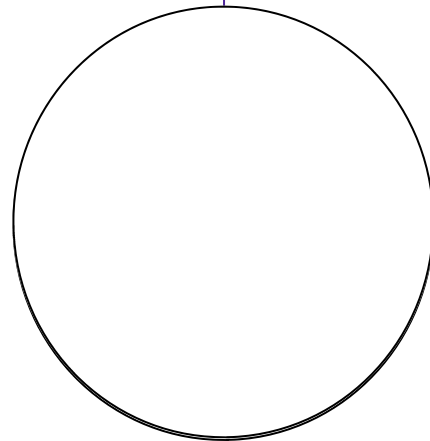

Never throw away batteries or old electronics

Always dispose of trash in the proper receptacle

Find out more at [www.sid.vt.edu](http://www.sid.vt.edu) or scan this QR code on your Smartphone!
