

Commonwealth of Virginia **Locality Recycling Rate Report** For Calendar Year 2019

Contact Information

Reporting Solid Waste Planning Unit: Virginia Tech

Person Completing This Form: Dennis C. Cochrane

Title: Director, Office of Sustainability, Facilities Department

Address: Sterrett Center, (Mail Code 0529), 230 Sterrett Drive, Blacksburg, VA 24061

Office Phone Number: (540) 231-5184 Email Address: denniscc@vt.edu

Summary: Virginia Tech, the Town of Blacksburg, the Town of Christiansburg, and Montgomery County are the four jurisdictional members of the "Montgomery Regional Solid Waste Authority (MRSWA). Located in Christiansburg, VA, MRSWA operates a transfer facility that receives the majority of our principal recyclable materials (PRMs), and all of our municipal solid waste (MSW). Virginia Tech uses a "Single Stream" Recycling System. Recyclable materials are transported from the university to MRSWA, weighed, and further transported to "Recycling & Disposal Solutions (RDS)." RDS serves as the recycling "hub" for our region receiving materials from both the New River and Roanoke Valleys. Food waste is collected from our 11 on-campus dining facilities and stored at a central location in a 10 ton "sledge" container. When the container is full, "Royal Oak Farm (ROF)" transports it to their composting facility located in Evington, VA. Municipal Solid Waste is transported to MRSWA, weighed, and further transported to the local landfill operated by the "New River Resource Authority (NRRA)" in Pulaski County near Dublin, VA. MRSWA prepares a consolidated recycling rate report for our region to include the four jurisdictional members, and submits it to the Commonwealth of Virginia Department of Environmental Quality (DEO). Virginia Tech uses this DEQ format to calculate our base recycling rate, our waste diversion rate, and our final recycling rate. For Calendar Year 2019 Virginia Tech's recycling rate was 39% and waste diversion rate (percentage of waste kept out of the local landfill) was 80% (see DEQ formula on page 2).

Data in this report was collected from our recycling and solid waste facilities and campus stakeholders. I certify that I have personally examined, and am familiar with, the information submitted in this form and any attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete.

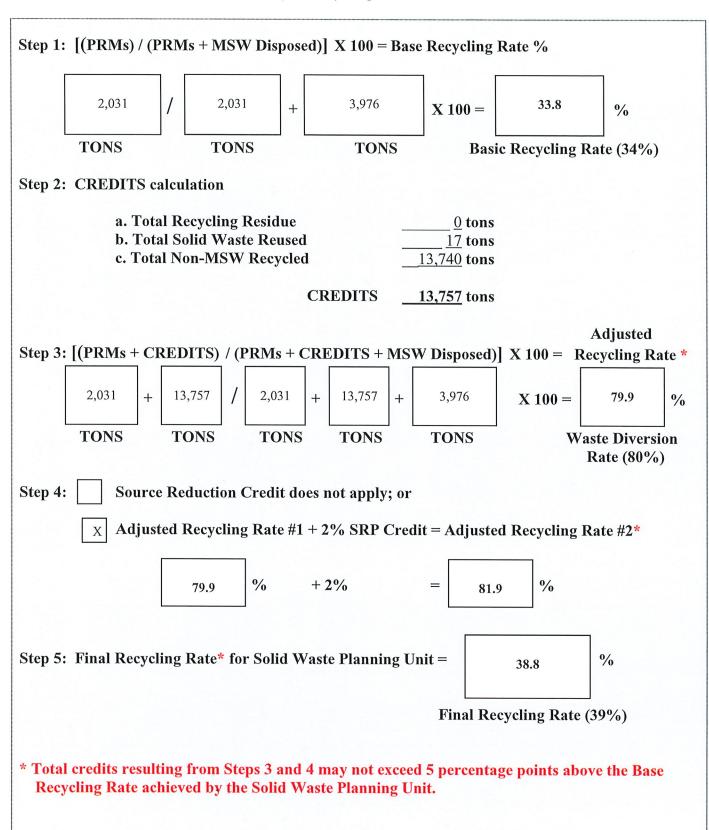

Dennis C. Cochrane

Director of Sustainability

Title

March 18, 2020

PART A: Recycling Rate Calculation - Using the formulae provided below and the information reported on Pages 3, 4 and 5 to calculate your recycling rates.

Part I: Principal Recyclable Materials (PRMs): Report only PRM material generated within the reporting SWPU and recycled, NOT imported PRMs for recycling.

PRM TYPE	RECYCLED AMOUNT (TONS)
Paper	319
Metal	193
Plastic	<u>0</u>
Glass	<u>0</u>
Commingled (also known as Single Stream)	430
Yard Waste (composted or mulched)	260
Waste wood (chipped or mulched)	<u>175</u>
White Goods	<u>2</u>
Tires	<u>5</u>
Used Oil	<u>9</u>
Used Oil Filters	<u> </u>
Batteries	<u>9</u>
Electronics	<u>7</u>
Fluorescent Bulbs & Ballasts	<u>13</u>
Food Waste Organic – For Composting	<u>566</u>
Waste Cooking Oil	<u>42</u>
TOTAL PRMs	2,031 (PRMs)
	(Enter Total on Page 2, Step 1)

Listing of sources for PRM data	(consider only Virginia	generated waste material)
---------------------------------	-------------------------	---------------------------

1.	Permi	tted solid waste facilities from which MSW disposed/recycled data was collected:
	a.	Department of Facilities: Office of Sustainability
	b.	Department of Facilities: Operations (Buildings & Grounds)
	c.	Department of Facilities: Capital Construction & Renovation)
	d.	Department of Environmental Health & Safety
	e.	Division of Student Affairs: Dining Services
	f.	Division of Student Affairs: Housing & Residence Life
	g.	Department of Parking & Transportation: Fleet Services
	h.	Department of Human Resources
	i.	Athletic Department
2.	Other	facilities/operations (not included in #1 above) from which MSW disposed/recycled data
	was co	ollected:
	a.	Montgomery Regional Solid Waste Authority (MRSWA)
	b.	Y-toss Program –Partnership w/ VT and the YMCA at VT
	c.	Campus Kitchen Program – VT Dining Services
	d.	

Part II: Credits by Category (see Credits Worksheet, Page 5)

A. Recycling Residue – "Recycling residue" means the (i) nonmetallic substances, including but not limited to plastic, rubber, and insulation, which remain after a shredder has separated for purposes of recycling the ferrous and nonferrous metal from a motor vehicle, appliance, or other discarded metallic item and (ii) organic waste remaining after removal of metals, glass, plastics and paper which are to be recycled as part of a resource recovery process for municipal solid waste resulting in the production of a refuse derived fuel. (§ 10.1-1400 of the <i>Code of Virginia</i>) (use only SWPU generation)

Hokie Stone Gravel Quarry "Overburden" - Stone recycled to Gravel 12,839
Asphalt VDOT Roadwork – Milled Asphalt 365
Commingled CID-LLC & Holden Hall Construction Projects 415
Commingled Student Athlete Performance Center Project 121
TOTAL NON-MSW RECYCLED 13,740
(Enter Total on Page 2, Step 2 c)

D: A credit of two (2) percentage points may be added to the Adjusted Recycling Rate #1 if the Solid Waste Planning Unit has implemented a Source Reduction Program (SRP). Examples of SRPs include Grass-cycling, Home Composting, Clothing Reuse, Office Paper Reduction (duplexing), Multi-Use Pallets, or Paper Towel Reduction. The SRP must be included in the Solid Waste Management Plan on file with the Department:

SRP description: The 2018-2019 Green RFP Program provided over \$16,000 for the purchase

reusable to-go food containers for use in 4 on-campus dining facilities.

SRP description: Campus Kitchen Program provided 10 tons of food donations from our

dining facilities to families in need in the Blacksburg Community.

SRP description: Ytoss Program (Partnership with the student group YMCA at Virginia Tech)

collected 7 tons of reusable items in residence halls during Spring Move-Out.

(Certify on Page 2, Step 4)

Exclusions: For the purposes of this report, the following materials are not considered solid wastes, and should not be included in any of the data categories utilized in calculating the recycling rate.

- 1. Biosolids -industrial sludge, animal manures; or, sewage sludge (unless composted)
- 2. Automobiles unless part of the Inoperable Vehicle Program (DMV)
- 3. Leachate
- 4. Soils contaminated soils, soil material from road maintenance
- 5. Household hazardous waste
- 6. Hazardous waste
- 7. Medical waste
- 8. Rocks or stone
- 9. Woody waste derived from land clearing for development, VDOT or easement tree trimming/clearing.

Part III: Total Municipal Solid Waste (MSW) Disposed** - Report only MSW generated within the reporting jurisdiction(s), NOT imported wastes or industrial wastes.

MSW TYPE	TOTAL AMOUNT of MSW DISPOSED (TONS)
Household	
Commercial	
Institutional	
Other (DO NOT INCLUDE INDUSTRIAL WASTES)	3,976
TOTAL MSW DISPOSE	ED 3,976 (Enter Total on Page 2, Step 1 and Step 3)

Note: MSW DISPOSED for the purpose of this report means delivered to a permitted sanitary landfill, delivered to a waste-to-energy facility, or managed at a transfer station for transport to a landfill or waste-to-energy facility.

Part C: Recycling Rate Report Instructions

Amended Regulations for the Development of Solid Waste Management Plans (9 VAC 20-130-10 et seq.) require that Solid Waste Planning Units (SWPUs) in the Commonwealth develop complete, revised solid waste management plans. Section 9 VAC 20-130-120 B & C of the Regulations requires that a minimum recycling rate of the total municipal solid waste generated annually in each solid waste planning unit be maintained. It also requires that the plan describe how this rate shall be met or exceeded and requires that the calculation methodology be included in the plan. Section 9 VAC 20-130-165 D establishes that every solid waste management planning unit with populations over 100,000 shall submit to the department by April 30 of each year, the data and calculations required in 9 VAC 20-130-120 B & C for the preceding calendar year. SWPUs with populations of 100,000 or less are only required to report every 4 years (CY years 2016 and forward).

NOTE: ONLY RECYCLING RATE REPORTS FROM AN APPROVED SOLID WASTE PLANNING UNIT (SWPU) WILL BE ACCEPTED FOR PROCESSING. JURISDICTIONS WITHIN A SWPU MUST SUBMIT THEIR RECYCLING DATA TO THE SWPU FOR INCORPORATION INTO THE ANNUAL REPORT.

It is requested that all amounts included on the form be listed in **tons (2,000 pounds)**, rounded to the nearest whole ton. If actual weights are not known, volumes can be converted to weight estimates. To assist you with these estimates, a standardized volume-to-weight conversion table is attached.

Contact Information Section: Please provide information on the Reporting SWPU and information on the individual completing this form. Under Member Governments, please list the local governments identified in the applicable solid waste management plan.

Calculated Recycling Rate Section: Using the formulae provided, calculate your recycling rates for the reporting period from information identified in the Recycling Rate Calculations Section.

Signature Block Section: Please provide an authorized signature prior to submitting the completed form. Authorized signatories include Executive Officer, Administrator, or other legally designated representative of the SWPU reporting entity.

Recycling Rate Calculations Section: Please provide the requested information:

Part I: Principal Recyclable Material (PRM) - Report the amount in tons of each PRM collected for recycling in the named jurisdiction(s) during the reporting period. PRMs include paper, metal, plastic, container glass, commingled, yard waste, waste wood, textiles, tires, used oil, used oil filters, used antifreeze, batteries, electronics, and other materials approved by the Director taken from the Municipal Solid Waste (MSW) generation. A one ton credit may also be entered for each inoperable motor vehicle for which a locality receives reimbursement from the Virginia Department of Motor Vehicles under §46.2-1207 of the *Code of Virginia*. The total weight in TONS of all PRMs collected for recycling is represented as PRMs in the Recycling Rate Calculation. New for CY 2015:

Provide source information for the PRMs reported on the report (permitted and unpermitted facilities).

Part II: Credits - Report the amount in TONS of each material for which recycling credit is authorized in §10.1-1411.C of the *Code of Virginia*: (i) one ton for each ton of recycling residue generated in Virginia and deposited in a landfill permitted under §10.1-1408.1 of the *Code of Virginia*; (ii) one ton for each ton of any solid waste material that is reused; and, (iii) one ton for each ton of any non-municipal solid waste that is recycled. The total weight in TONS of all material for which credits are authorized is represented as CREDITS in the Recycling Rate Calculation. A credit of two percentage points of the minimum recycling rate mandated for the Solid Waste Planning Unit (SWPU) may be taken for a source reduction program that is implemented and identified in its Solid Waste Management Plan. Total credits may not exceed five percentage points above the Base Recycling Rate achieved by the SWPU.

Part III: Total Municipal Solid Waste (MSW) Disposed: Report the total amount in TONS of MSW that was disposed of by the Solid Waste Planning Unit (SWPU) during the reporting period for each of the source categories (Household, Commercial, Institutional, and Other). For the purpose of this report, "disposed," means delivery to a permitted sanitary landfill or waste incinerator for disposal, and excludes industrial wastes. Industrial waste and by-products should not be included in the MSW or Recycling calculation. The total weight in tons of MSW disposed is represented as MSW Disposed in the Recycling Rate Calculation.

Locality Recycling Rate Report Volume to Weight Conversion Table

Material	Volume	Weight in Pounds	
Metal			
Aluminum Cans, Whole	One cubic yard	50-74	
Aluminum Cans, Flattened	One cubic yard	250	
Aluminum Cans	One full grocery bag	1.5	
Ferrous Cans, Whole	One cubic yard	150	
Ferrous Cans, Flattened	One cubic yard	850	
Automobile Bodies	One vehicle	2,000	
Paper			
Newsprint, Loose	One cubic yard	360-800	
Newsprint, Compacted	One cubic yard	720-1,000	
Newsprint	12" stack	35	
Corrugated Cardboard, Loose	One cubic yard	75-100	
Corrugated Cardboard, Baled	One cubic yard	1,000-2,000	
Plastic
